WARNING

Please note that this must be taken very seriously ...

This course contain fresh ideas, different perspectives and occasionally raw language which could lead to expanded perceptions, new found zest for living and a loss of unhelpful limiting beliefs. It may therefore irritate those suffering from excessive certainty, chronic small-mindedness and major inflammation of the self-importance. If in doubt don't be too sure about it

Dr Richard Bandler

'The future is bright, and it glitters!'

Carl Sagan

Welcome to your 2021 Spring Forward AwayDay - Forging A New Legend - part of my Legacy Mastermind & Mentoring programme for 2021. It is a real pleasure to work with you as you continue to build your business success and make your mark for all the right reasons. This session will enhance your today and your tomorrows too.

What's your story for the way the year ahead will run? What do you want to have happen? Stories weave together a life narrative that is the foundation for your business identity, beliefs, values, capabilities and behaviours and ultimately gives you, your staff, and the business, coherence, meaning, purpose, potential and possibilities in the years ahead. It's time to forge a new legend in 2021 and beyond. I like that thought!

Begin to look at the frames around your business and you. Control the frame and you control the meaning and direction. Time for some reframing and time to do some time travels into your future to build your present and your presence.

I know you will enjoy and gain greatly from today's presentation and I know I will enjoy facilitating your adventure! I salute you for being here and I am wholly committed to making a real difference to you today, and well beyond this session too. Please do spread the word about my work. Your recommendations mean so much to me. Thanks for being here!

A Framework for Alignment & Integration NLP's Neurological Levels

Change can be an energy force for good, for positive evolution, growth and development. The way we frame change constructs our experience of it. Change the frame, change the perspective. NLP's Neurological levels are a dynamic interconnecting interdependent field of relationships. When we progress change through each of the levels it becomes embedded at deep levels, with rich neural networks fired that create compelling coherent templates of change. The changes someone desires become aligned and embedded - and anchored too!

You can also step through the neurological levels to recognise where things are out of alignment. Then step into the bigger picture and bring the learnings back through the levels to embed the wisdom and change.

We can do so much more with the Neurological Levels in ongoing trainings and mentorings! There's always more! Psychology and NLP are a rich, dynamic and evolving field. Please tell others about my training - and please do join me for ongoing inspiration! I LOVE influencing influencers like YOU! And I LOVE resourcing RESOURCERS like you too!

Suddenly, from behind the rim of the moon, in long, slow-motion moments of immense majesty, there emerges a sparkling blue and white jewel, a light, delicate, sky-blue sphere laced with slowly swirling veils of white, rising gradually like a small pearl in a thick sea of black mystery. It takes more than a moment to fully realise this is Earth ... home. My view of our planet was a glimpse of Divinity.

EDGAR MITCHELL, Apollo 14

Inspirations

*The empires
of the future
are empires
of the mind*

Winston Churchill

*To the person
who does not know
where he wants to go
there is no favorable wind.*

Seneca

*A leader has the vision
and conviction
that a dream
can be achieved.
He inspires the power
and energy to get it done.*

Ralph Lauren

*Dream lofty dreams,
and as you dream,
so shall you become.
Your Vision is the promise
of what you shall
one day be.
Your Ideal is the prophecy
of what you
shall at last unveil.*

James Allen

*Big thinking precedes
great achievement.*

Wilferd Peterson

*Dissatisfaction
and discouragement
are not caused
by the absence of things
but the absence of vision.*

Anonymous

*The future belongs
to those who see
possibilities before
they become obvious.*

John Scully

Clarify Your Purpose, Vision & Values

New Octaves of Beingness - Unleash The Big Dream

Remember Thoreau's advice that we need to have dreams in order to bring them into reality. Without a vision we aren't sure where we headed. Writing things down in this way helps to bring vision into the physical world, helps ground you, and others in your organisation, and begins to pull you forward, moving you toward your vision and dreams.

You make a difference. What you do counts. Everything matter. What you do impacts the world. You change the future.

What is your Mission and Purpose? What is your Vision for your one wild and precious life? What is your vision for your leadership role? Ensure there's energy in it, ensure your heart goes out to it - be authentic!

What is your Zone of Genius?

What is your Mission & Purpose? What's the Vision?

What do you need to do to make this a reality?

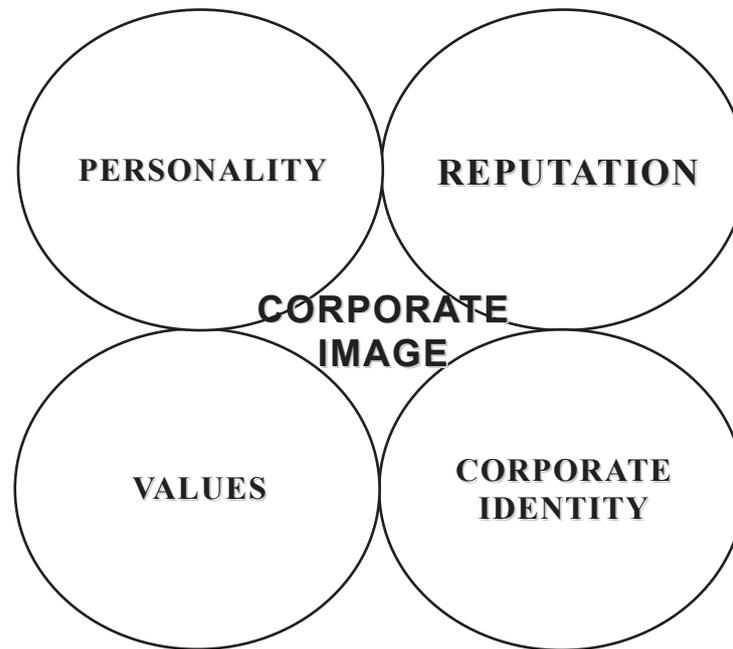

What are your Values?

Success *Forging A New Legend*

Clarity is essential! Without clarity, individuals and organisations flounder. Clarity of vision is vital - where do you want to be? Clarity in planning is necessary - how will you get there? Without this clarity, you, your organisation and any partnership you pursue will be less effective. Robert Mager put it very well: *'If you don't know where you are going, how will you know when you get there and how will you know if you get lost on the way'*. If you don't know where you are going you will probably never get there!

Clarity may come through analysis of your own organisation in order to identify where you are now and look at the challenges and the opportunities facing your organisation.

If your organisation had a personality, who would it be? Richard Branson, Anita Roddick, Sir Alan Sugar, Volvo, Mercedes, The Starship Enterprise! How are you perceived by others? This will determine whether or not they will wish to be involved with you!

(Institute of Public Relations)

Why does your organisation exist? What is its core business? Do you have a Vision or Mission Statement? What is your Purpose. Where is your organisation trying to position itself? Have you audited your own employees/volunteers/clients' experience and identified any gaps in services?

Your purpose needs to be clear. If it is not it will probably fail, or at the very least be much less effective than it could be. Lack of alignment also sends mixed messages to those you are involved with.

If you are navigating a ship then you need a clear purpose/destination and a clear direction. Think of the dangers without it! Without it your ship will lose energy and impetus and ultimately fail because neither you nor your staff or clients will be clear about what is being undertaken and why. Clarity helps create commitment - and thrust! Clarity is essential. Are you clear? If not why not, and what are you going to do about it?

Remember that clarity is a clear indicator of success!

'I am my message'
